

INFECTIOUS LARYNGOTRACHEITIS (ILT) INDUSTRY BIOSECURITY ADVISORY

Central Frontenac Twp., Frontenac County

January 6, 2022

The Feather Board Command Centre (FBCC) is issuing a Biosecurity Advisory related to [an area in Central Frontenac Twp.](#) in Frontenac County in eastern Ontario.

FBCC has been informed by the Ontario Ministry of Agriculture, Food and Rural Affairs (OMAFRA) that ILT has been diagnosed in a small 12-bird exhibition poultry flock. There are no commercial flocks in this area. There are 26 registered small flocks within a 10 km radius.

Please reinforce your biosecurity protocols if providing service in this area. Please minimize and sequence all travel in the area. For essential visits to premises where poultry is grown, apply the following recommended biosecurity measures: wearing clean boots, protective suits, hats and gloves/hand washing. All deliveries or loading in this Advisory Area should be last on the route. Wash and disinfect the truck's undercarriage and steps before proceeding with any other delivery/loading. Where possible, after being in the area, please try to avoid going to another farm outside the area within 12 hours.

Please consider [registering](#) for access to the FBCC website for detailed information on local and global federally reportable and provincially notifiable poultry diseases.
